MODERN TRENDS IN MOLECULAR MAGNETISM

Indian Institute of Science Education and Research Bhopal, India

Conference website: <https://conf.iiserb.ac.in/mtmm2019/>
E-mail: mtmmiiserbhopal@gmail.com

The International conference, “**Modern Trends in Molecular Magnetism**” is going to be organized at IISER Bhopal, during **November 27-30, 2019**. The conference is intended to provide a forum for the discussion of promising and ground-breaking developments in different areas of Molecular Magnetism, integrating chemists, physicists and materials scientists from all over the world. The topics include, but not limited to: * Single Molecule Magnets (SMMs) * Switchable Magnetic Materials * Electronic structure, Modelling and Theory * Spectroscopic and Advanced Experimental Methods * Molecular Spintronics and Interface Magnetic Effects * Multifunctional Magnetic Materials * Magnetic Nanoparticles and their Applications. We cordially invite you to participate in this conference, thereby making it a grand success.

Call for Posters

Participants interested to present poster are most welcome. Please refer to the website for further details.

Important Dates

Registration Opens: May 15, 2019
